Installation instructions

PLANNING

Before starting the installation, plan the layout in detail, taking the site conditions into consideration.

NORMAL USE

OpenSpace is intended to be installed on a shower base or a shower surface specifically designed for this purpose. Any other usage will be deemed as not corresponding with normal usage. DURAVIT AG assumes no liability for abnormal usage.

TARGET AUDIENCE AND QUALIFICATIONS

The shower screen may only be installed by a qualified plumber.

WATER-TIGHTNESS

With OpenSpace, the doors have a rise and fall hinge mechanism, and rest directly on the shower base or floor. This ensures maximum protection against splashes.

In the case of frameless glass showers that are sealed by means of flexible plastic seals, it is not possible to ensure absolute water-tightness.

Doors that open into the room may drip.

Technical drawing - Shower screen

- = Mounting area for plumbing hardware
- = Pivot range of doors

Dimensions of large package (L x W x H)

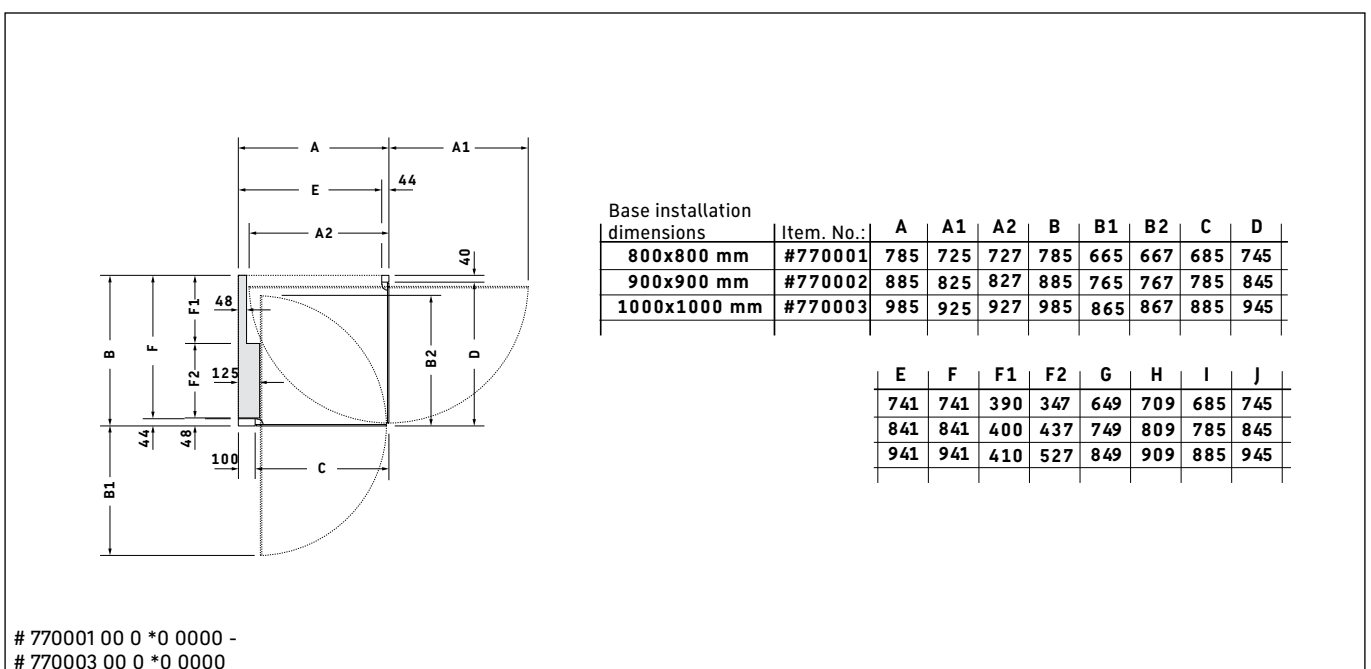

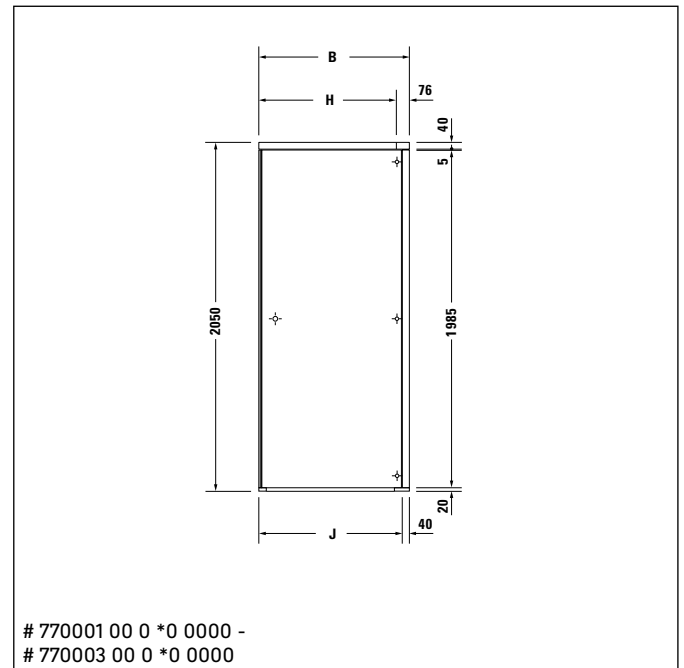

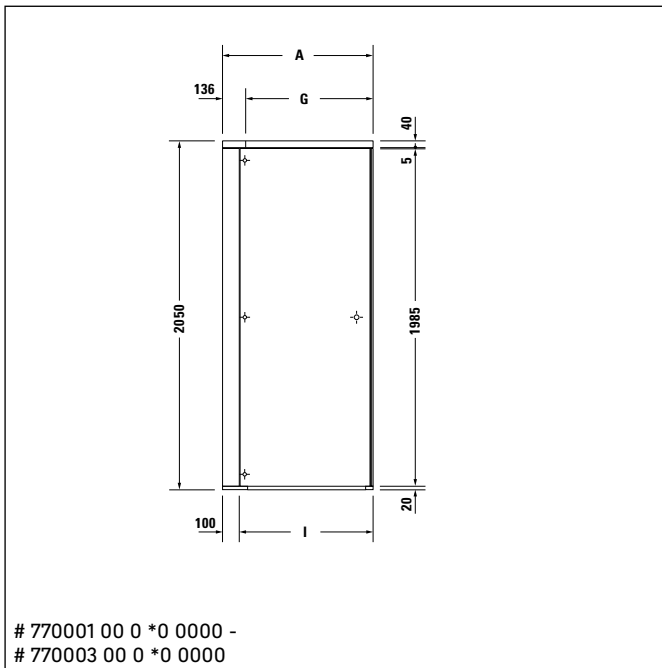

2040 x 960 x 80 mm

Shipping dimensions (L x W x H)

2100 x 1090 x 450 mm

Shipping weight

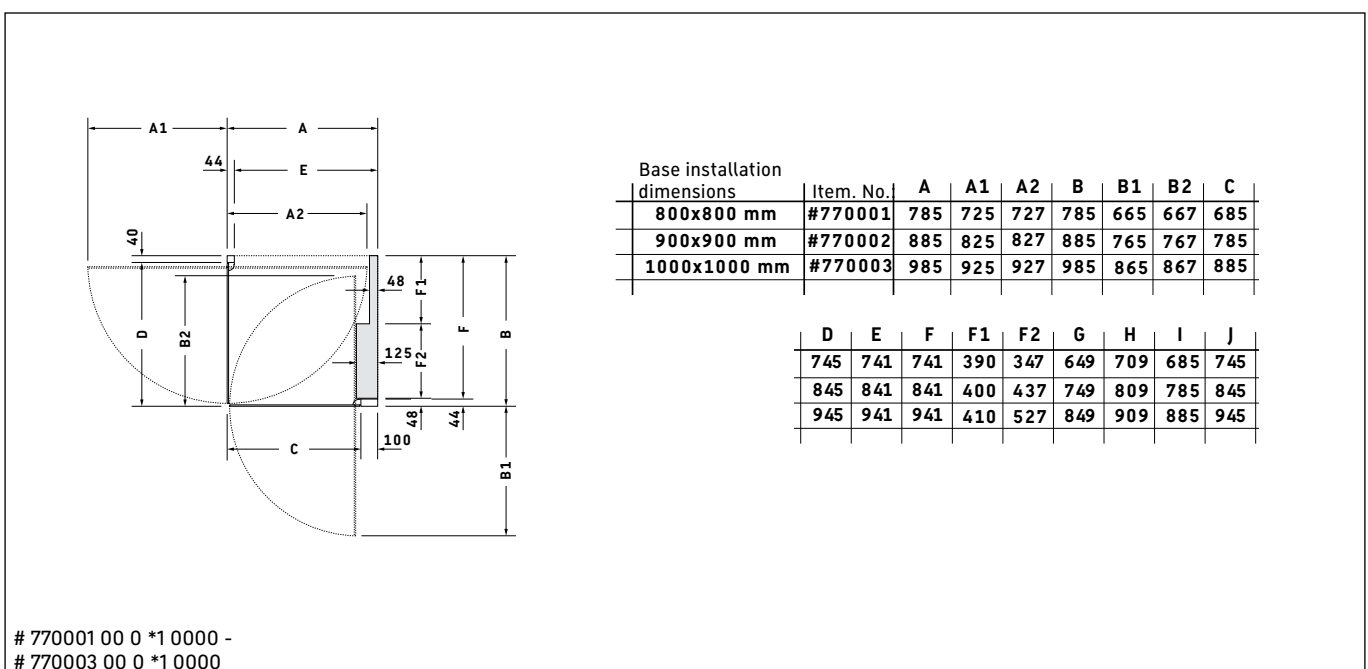

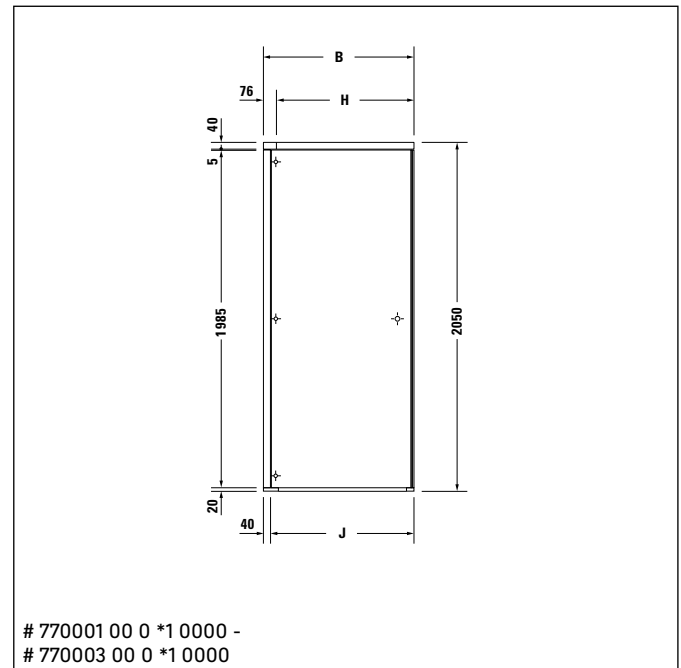

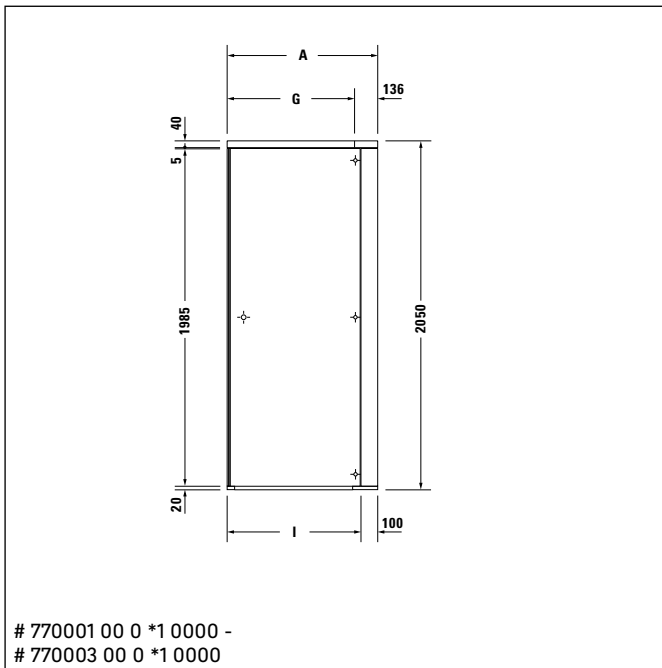

~ 100 - 120 kg

Pre-Installation

INSTALLATION LOCATION / INSTALLATION ROOM

> Ensure installation location fulfils following criteria

Doors / External access

- > Ensure that doors or other access openings are large enough to accommodate transport dimensions, keeping in mind the weight and need for sufficient manoeuvring room.

Ceiling height

min. 2150 mm from upper edge of shower basis / floor

Required area

see technical drawing

NOTE!

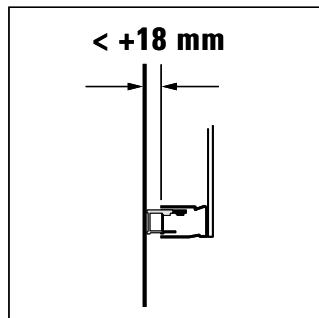

- Observe pivot range of doors.
- Observe base installation dimensions.

Shower base / floor

- Installed
- Completely level
- At a right angle to wall

Wall

- Wall tiled
- At a right angle to shower base / floor
- Completely straight:
Maximum tolerance compensation at connection to wall 18 mm.

PLUMBING HARDWARE

> Check dimensions of plumbing hardware

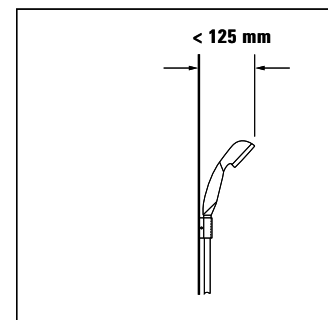

Mounting area

see technical drawing

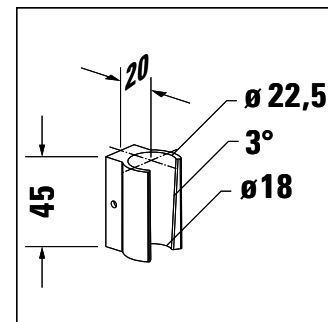

Max. projection

125 mm

NOTE! Since shower bars in combination with the handheld shower itself can exceed the dimension of 125 mm, every OpenSpace shower screen includes a conical shower head holder.

Max. projection of handheld shower

Handheld shower holder

> Provide information on mounting area for plumbing hardware to plumber (see "Technical drawing")

Pre-installation Checklist

REQUIREMENTS	√	REMEDY	√
I. INSTALLATION LOCATION / INSTALLATION ROOM			
Installation position, doors, stairs etc. suitable for transport of individual parts (space and weigh), manoeuvring space checked			
Ceiling height checked			
Required space planned			
Base installation dimensions checked			
Floor and wall completely level and straight, at right angles to each other		Modify floor / wall	
I. PLUMBING HARDWARE			
Mounting area for plumbing hardware established and provided to plumber			
Dimensions of plumbing hardware checked
